NARRATIVE

1. On Monday June 3, 2019 at approximately 1715 hours I, Officer Morrison was dispatched to the front of the Charles Hotel on the report of a motor vehicle accident involving a Harvard University Shuttle Bus.

2. Upon arrival I met [REDACTED], Staff and Mr. John Crowley, non affiliate. [REDACTED] was driving the Harvard University Shuttle Bus with Massachusetts Registration [REDACTED] on Bennett Street when it struck Mr. Crowley's parked Pickup Truck. Mr. Crowley's truck is a Gray Ford Pickup Truck with a Massachusetts Registration of [REDACTED]. I took pictures of both vehicles and they are attached to the report.

3. [REDACTED], non affiliate witnessed the bus strike Mr. Crowley's Truck. [REDACTED] stated that as the bus pulled out from behind the truck it struck the back fender/ bumper area on the driver's side. The back bumper is out of place the tail light was broken and shattered on the ground. The rear driver's side panel behind the back tire is dented and marked with a large black scrape from bumper to tire well. The rear bumper is marked with red and black paint and is slightly pulled away from the truck and is warped. The Truck has a bed cover named BakFlip and it is no longer aligned correctly.

4. The passenger side on the Bus has a large scrape down the side of the bus from point of impact to the back bumper. There is a dent along some of the scrape but a small panel door near the bumper is pushed in and does not appear to be functional.
